**SENATE MAY VOTE ON
FARMERS' BILL SOON**
WASHINGTON, Jan. 17.—Little op-
position to the agricultural extension
bill developed today in the debate in
the senate, and Senator Hoke Smith, in
charge, announced he would seek a vote
next week.

Senator Smith announced the method
proposed carrying scientific methods of
farming to the farmer's very door.
Senator Smith said he had intended to
amend the bill to provide for demon-
stration work in buying and preparing
food by housewives, but had refrained
because it might handicap the measure
in the house.

Senator Simmons offered an amend-
ment to appropriate immediately \$500,-
000 instead of \$300,000 for the work,
and authorizing an ultimate appropri-
ation of \$5,000,000 annually instead of
\$3,000,000. The amendment was pend-
ing when the bill was laid aside.

FALLING ROOF KILLS YOUTH INSTANTLY

Head of Harold Whiting
Crushed to Pulp by a
Heavy Beam.

Special to The Tribune.
ROBINSON, Jan. 17.—His head crushed
to a pulp on the roof over which he was
beating, Harold Whiting, aged 15, son
of Mr. and Mrs. Zet Whiting of Robin-
son, was instantly killed at 3 o'clock this
afternoon in the blacksmith shop of the
Gold Chain mine concentrator when the
roof caved.

Harold and his brother, Floyd, aged
12, were spending the afternoon sleigh-
ing and when near the plant their sleigh
was accidentally broken. The boys ap-
plied to Engineer John Smith of the
concentrator and received permission to
use the blacksmith shop to make repairs
on their sleigh.

Due to the heavy storms of yester-
day, the roof of the shop held an im-
mense weight of snow. As the boy bent
over the anvil the timbers gave way
and a heavy beam struck him directly
upon the head, dashing out his brains.

The brother, who stood by, saw the
danger in time to escape serious injury.
He called Superintendent Samuel Cox
and after half an hour's work by several
men the body was recovered from the
mass of snow and debris under which
it had been buried.

Better than calomel, oil or salts
for liver, bowels and
stomach.

Mother, daddy and the children can
always keep feeling fine by taking this
delicious fruit laxative as occasion de-
mands. Nothing else cleanses the stom-
ach, liver and bowels so thoroughly
without griping.

You take a little at night and in the
morning all the foul, constipated waste,
sour bile and fermenting food, delayed
in the bowels gently moves out of the
system. When you awaken all headache,
indigestion, sourness, foul taste, bad

breath, fever and dizziness are gone;
your stomach is sweet, liver and bowels
clean, and you feel grand.

"California Syrup of Figs" is a fam-
ily laxative. Everyone from grandpa
to baby can safely take it and no one is
ever disappointed in its pleasant ac-
tion. Millions of mothers know that it
is the ideal laxative to give cross, sick,
feverish children. But get the genuine.
Ask your druggist for a 50-cent bottle
of "California Syrup of Figs," which
has directions for babies, children of all
ages and for grown-ups on each bottle.
Refuse with contempt the cheaper Fig
Syrups and counterfeits. See that it
bears the name—"California Fig Syrup
Company." (Advertisement.)

TO RESUME WORK ON PIUTE PROJECT

State Will Soon Advise
for Bids on Canal
Extension.

Bids will be advertised for and the
contract let next month for the con-
struction of an extension of six miles
on the Piute canal, making this canal
run into Sanpete county, according to
an announcement made yesterday by W.
P. Beers, state engineer. It is estimated
that the work will cost from \$10,000
to \$15,000 and that as a result at least
another 7000 acres of land on the Piute
project will be benefited.

The new extension will run north
from a point twenty miles north of
Richfield to near Gunnison on the Sevier
river. Later another six-mile ex-
tension will be made to go still further
north. The Piute project is under the
supervision of the state land board and
the contemplated improvements are in
line with a plan to complete the project
this year.

About \$600,000 has already been
spent during the three years or more
that work has been going on. A total
of \$54,000 was spent on the Sevier
river dam during the year 1913 and by ex-
penditure of an additional \$30,000. The
dam, located twelve miles north of
Marysville, has an elevation of 100
seventy-seven feet, which will be made
100 feet when finished.

There are about 40,000 acres of land
in the entire Piute project and as it
is thickly settled is considered one of the
most important in the state. It en-
compasses land in Piute, Sevier and San-
pete counties.

MORTALLY WOUND COW IN TARGET PRACTICE

Coincident with target practice of
four boys in the neighborhood, a val-
uable cow belonging to former Fire
Chief James Devine was found lying in
the orchard of the premises, 2055 East
Tenth South street, yesterday after-
noon, suffering from a bullet wound in
the back. It was necessary to kill her.
The boys, were turned over to the
police by Mr. Devine. Their case was
called to the attention of the juvenile
officers.

tered. It usually costs the city about
\$1200 to make the audit.
